

How to Sponsor “A Day at a Four-Year”

Recruit community college students and their instructors; contact students through their instructors or advisors.

INVITE COMMUNITY COLLEGE STUDENTS TO:

- » tour your four-year campus.
- » meet CS and IT faculty and students.
- » learn about research and careers in CS/IT through the Recruitment Road Show for Community College Students PowerPoint Presentation (inside the resource folder titled “Recruitment Materials and Programs”).

RECRUIT STUDENTS FROM FOUR-YEAR CS/IT PROGRAMS and ask them to act as “near peers” (third or fourth year students from your college or university) to conduct campus tours and present the Recruitment Road Show for Community College Students PowerPoint Presentation (inside the resource folder titled “Recruitment Materials and Programs”).

CONDUCT ENGAGING, HANDS-ON, COLLABORATIVE LEARNING ACTIVITIES RELATED TO CS/IT.

ARRANGE FOR STUDENTS TO MEET WITH PROGRAM REPRESENTATIVES from groups like Society of Women Engineers, Women in Computing, Minority Engineering Program, etc.

PROVIDE STUDENTS WITH RECRUITMENT MATERIALS, such as employment data, student and worker profiles, and contact information for transfer and articulation advisors (inside the resource folders titled “Team Meeting Materials” and “Convincing Data and Profiles”).
