Certified Information Systems Auditor (CISA)
Course Hours: 75 hours
Duration: 6 months

Summary
With cyberattacks on the rise, more organizations are investing in data protection and building out their cybersecurity teams. As an IT professional, earning your CISA certification could be the first step to leading IT security at your organization. This online CISA training course will teach you how to identify and evaluate the five Certified Information Systems Auditor certification domains: auditing, governance, implementation, management, and protection.

This course offers enrollment with or without a voucher. The voucher is prepaid access to sit for the Certified Information Systems Auditor (CISA) exam and is included with this course upon eligibility.
