Program Manager

Stephanie Weber
Director; K-12 Alliance &
Regional Initiatives

JeffriAnne Wilder, Ph.D.
Senior Research Scientist &
Director of Strategic Initiatives
for Women & Girls of Color

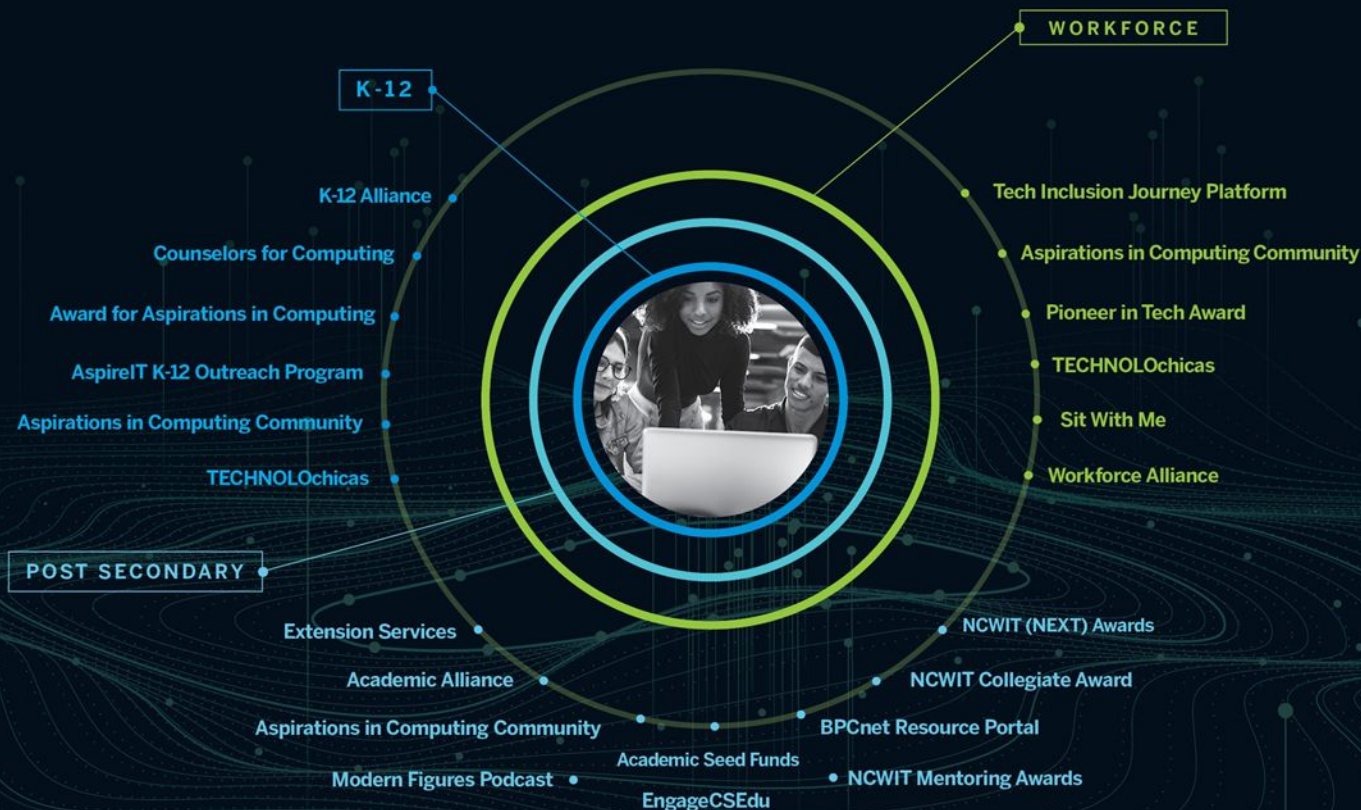

Brittney Anderson-Martin
Project Manager

The National Center for Women & Information Technology (NCWIT) is the farthest-reaching network of change leaders focused on advancing innovation by correcting underrepresentation in computing.

NCWIT **convenes, equips, and unites** nearly **1,500 change leader organizations** nationwide to increase the influential and meaningful participation of girls and women — at the intersections of race/ethnicity, class, age, gender identity, sexual orientation, disability status, and other historically marginalized identities — in the field of computing, particularly in terms of innovation and development

We are a thriving community of change leaders comprised of an ecosystem of programs and initiatives that span a woman's entire journey from K-12 through career.

K-12 Alliance

The **NCWIT K-12 Alliance** is dedicated to creating access to authentic, inclusive computing education for every girl, everywhere. Made up of more than **650 national organizations, professional educator associations, academic institutions, and businesses**, the K-12 Alliance leverages the reach and diversity of its members to increase the meaningful and influential participation of girls in computing.

Backed by social science research, NCWIT's K-12 Alliance also creates outreach programs and resources that recruit, retain, and advance more girls into computing nationwide.

K-12 RESOURCE UPDATE

2023 Resource Queue:

NEW RESOURCES

- A Decade Review of K12 Alliance and State of K12 CS Community
