GEARING UP FOR CHANGE

INSTITUTIONAL REFORM IN UNDERGRADUATE COMPUTING PROGRAMS

Broadening Participation in Computing initiatives are much more likely to succeed when change leaders address readiness and ensure that subsystems work in harmony with each other to reinforce the envisioned change.

Learn the eight prerequisites for sustainable organizational change and discover additional strategies at ncwit.org/resources/gearing-up-for-change
Inspire, energize, and generate support for Broadening Participation in Computing (BPC) by designing and using intentional, persuasive messages for departmental and institutional colleagues throughout the organizational change process.
