INCLUSIVITY IN STEM IS VITAL.

NCWIT offers resources to inspire participation.

GET INVOLVED TODAY

FOR STUDENTS

NCWIT Aspirations in Computing (AiC) Community
Connect with thousands of like-minded women, genderqueer, and non-binary technical students, and gain access to exclusive computing-related opportunities. (aspirations.org/AiCCommunity)

High School Award
Honors 9th-12th grade women, genderqueer, and non-binary students for their achievements in computing, and encourages them to pursue their passions. (aspirations.org/AiCAward)

FOR EDUCATORS

Professional Development
NCWIT Counselors for Computing (C4C) professional development provides information and resources to help counselors and those in advising roles join the front line of the computing conversation. (ncwit.org/C4C)

TeachEngineering resources and professional development help educators integrate engineering design into STEM curriculum (teachengineering.org)

Recognition and Visibility
The AiC Educator Award identifies exemplary educators who inspire 9th-12th grade women, genderqueer, and non-binary students to explore computing and technology. Both formal and informal educators who promote gender equity in computing are recognized. (aspirations.org/AiCEducatorAward)

FOR EVERYONE

Multimedia and More
Find videos with inspirational speakers and renowned experts, insightful blogs, copies of re:think magazine, and the latest upcoming events in the NCWIT Media Hub. (ncwit.org/media)

Tips, Tools, and Resources
Foster inclusive culture change from the classroom to the boardroom. (ncwit.org/resources)
