

Empowering advisors to navigate the future of tech.

Advising for Future-Ready Students prepares counselors, educators, and others in student advising roles to support students in navigating technology across educational, career, and social/emotional domains. Our resources and professional development offerings are designed to help you connect students' passions to technology, and open a world of opportunity.

STUDENT ADVISING RESOURCES

Our resources provide easy-to-use tools to connect STEM to students' interests, empowering a generation of tech-savvy problem-solvers, innovators, and leaders who will shape a brighter future for tech.

PROFESSIONAL DEVELOPMENT

Technology is ever-present in our lives. Whether in their personal lives, careers, and educational journeys, all students need help navigating this ever-changing landscape. Our workshops cover cutting-edge topics to help you actively promote and expand access to computer science and technology education for all learners.

WHAT COUNSELORS SAY

My biggest (Advising for Future-Ready Students workshop) takeaway was having a clearer understanding of what AI literacy really means and how quickly AI is becoming part of education and the workforce.

Why work with Advising for Future-Ready Students?

Advising for Future-Ready Students has trained more than **25,000** counselors in professional development workshops, with a potential reach of nearly **11M** students, effectively expanding the pool of students learning about technology.

➤ **PROVEN IMPACT**

Our professional development has a solid history of empowering educators to make a lasting impact on their students' lives.

➤ **NATIONALLY RECOGNIZED EXPERTISE**

NCWIT is a leader in broadening participation in computing, and the Advising for Future-Ready Students program is at the forefront of these efforts in K-12 education.

➤ **COLLABORATIVE APPROACH**

We work hand-in-hand with our partners to tailor our workshops to the specific needs of your educators and students.
